

# Microsoft Teams is the hub for teamwork in Microsoft 365

Microsoft Teams is a hub for teamwork, which brings together everything a team needs: chat and threaded conversations, meetings & video conferencing, PSTN calling, content collaboration with the power of Office 365 applications, and the ability to create and integrate apps and workflows that your business relies on. And because Microsoft Teams is a part of Microsoft 365, it comes with the enterprise-grade security, compliance, and manageability that our customers expect and value.

## KEY FEATURES

---

### Enhance and enrich your meeting experience

Meet smarter, stay focused, and achieve more with Microsoft Teams Meetings. Teams delivers a unique end-to-end meeting experience that features the human element of face-to-face interaction whilst helping people stay focused before, during and after the meeting to accomplish more together. Teams Meetings provide a seamless, scalable, and secure experience on mobile, desktop, and meeting room devices.

### Calling made simple

Simplify your enterprise voice services with a reliable, high-quality integrated calling solution built on the Microsoft cloud. Make and receive phone calls from anywhere – including your desk phone, mobile phone or computer. Get a modern voice solution that combines unified communications with teamwork capabilities into an all-in-one communication and collaboration solution that users love and IT trusts. And best of all, your business saves time and money with a single provider.

### Devices for every space and working style

Microsoft works with an ecosystem of best-in-class device partners to deliver a native, purpose-built Teams certified to enhance calls and meetings and deliver high-quality audio, video and sharing experiences. Connect Microsoft Teams enabled devices like Microsoft Teams Rooms headphones, cameras, and microphones to enhance the quality of your presentations.

**KEY BENEFITS****Transform Workplace collaboration**

by bringing everything together into a shared workspace where you can chat, meet, create, and make decisions as a team. And since all your content is organised by team or project, you are able to stay in the flow of your work. It takes the average person 23 minutes to regain productivity after an interruption, or being distracted.

**Streamline business processes**

You need ready access to business-critical data, applications, and be able to execute repeatable processes efficiently. Since Teams is a true platform, you can plug in apps and services you already use, and even integrate your existing tailor-made tools INTO Teams. Imagine being able to seamlessly kick off a repeatable approvals process without ever having to leave Teams.

**Connect everyone on a single platform**

Teams is just as important and effective a tool for a C-level executive, as it is for somebody on a factory floor, in a retail shop, a classroom, a hospital, in a marketing role, or anyone in between. For example, you can see here how Teams gives Firstline worker managers a tool to manage schedules and gives the workers
